Project Management is where the jobs are now and into the future - there are more than 26,000 Project Manager jobs currently listed on seek.com.au

Want to develop your project management skills so you can better position yourself for these jobs? The nationally accredited Certificate IV in Project Management Practice is your best pathway.

The Centre for People Development offers the CIV in Project Management Practice (BSB40920) online. and **enrolments are now open for course commencing March 2024**.

The course covers the essential phases of project management, using the PMBOK project management methodology and focusing specifically on how to plan and manage your projects.

Project management essentials are all included:

- Setting up your project for success
- Applying scope, time and quality management techniques
- Managing risks to your project
- Managing the budget and people resources
- Keeping your project on track
- Wrapping up a project

We use real projects as course content and depending on what interests you, this may be an HR project, building or construction initiatives, diversity inclusion and cultural relevance, marketing, business planning or any other relevant project.

Comprehensive materials are provided, including textbook and a valuable range of project management tools, templates and instruments, ready for use in participants' workplaces.

You use your project as course input, whether it is an industrial relations process, building or construction initiative, improving diversity and inclusion in your organisation, policy and procedures review or any other work project of importance to you.

WANT TO GET STARTED?
